## EXPERIENCE

### Full Stack Web Developer - Intern | In collaboration with EY GDS-AICTE

February 2021 - Present, India

- Participated in engineering and developing open-source full stack web application using HTML, CSS, JS, Python and Django.
- Developed "News Aggregator using Django Framework".
- Initialized Django project structure, including database configurations.
- Implemented secure user registration and login functionalities.
- Designed and implemented homepage layout displaying top news articles.
- Developing personalized news feed feature for users.
- Set up models for storing articles, categories, and integrated external APIs.
- Focus on refining features, implementing additional functionalities.

### UX/UI Designer | NextSoftInnovations

December 2022 - December 2023, Umroli, Maharashtra

- Been at NextSoftInnovation for 1 year, contributing to various projects.
- Developed UI/UX designs for NextSoftInnovation projects, focusing on user-centric design principles.
- Transitioned to a key role in a government project, where I designed app interfaces and collaborated on multiple aspects of the project.
- Led the design process, created wireframes, prototypes, and user interface designs.
- Successfully delivered user-friendly and visually appealing designs, contributing to the overall success of projects.
- Proficient in tools such as Adobe XD, and Figma, with a strong understanding of design principles and usability standards.

## PROJECTS

### Portfolio

<https://rahul-chauhan.vercel.app/>, February 2024 - March 2024

- Designed and developed a portfolio website utilizing HTML, CSS, and JavaScript.
- Incorporated interactive features such as contact form, CV download option, and contact button for easy communication.
- Integrated links to GitHub, LinkedIn, and email for viewers to access and connect with my profile.
- Structured the portfolio with distinct sections for projects and skills to effectively showcase professional achievements and expertise.

### Streamhubs

<https://streamhubs.vercel.app/>, January 2024 - February 2024

- Developed a movie website leveraging TheMovieDB and Vidsrc APIs for fetching and streaming movie and TV series content.
- Implemented search functionality, content display flexibility, and individual movie details pages for seamless user experience.
- Integrated Vidsrc API for smooth streaming capability, ensuring users can stream content for free.
- Ensured responsive design, user interaction features, error handling, performance optimization, and security measures for enhanced functionality and user satisfaction.

## EDUCATION

### Bachelor of Engineering -IT | University of Mumbai

8.65 CGPA, Maharashtra, India, 2023
